

with relating to motor vehicles, to increase the amount of fees for certificates. Put in by the Public Works Committee and signed by the members thereof.

PRESIDENT: Senator Moylan.

SENATOR MOYLAN: Mr. President and members of the Legislature, this bill was sent down by the assessor of Douglas County, I think, but it does affect all counties in the state and the filing fees for titles and liens has not been raised for a great number of years. They are trying to get them up to where it would cover more than..would more nearly cover the cost of handling these certificates and especially in the replacement or duplicate copy of title, raising from \$3 to \$5 and others now, the refiling of certificate of titles from \$2 to \$3 and this money is retained by the county. Now the original filing is raised from \$2 to \$3, notation of lien from \$1 to \$2 and the clerks, counties shall retain \$2 of the original filing and \$1.50 for each notation of lien and the balance of the funds will be credited to the state General Fund. I ask for the introduction of this bill.

PRESIDENT: Any further discussion? The question is, the request of Senator Moylan and the Committee for the introduction of the bill. Record your vote. Have you voted? That's false alarm. The Board is still open. Please vote so we can move this along. Record, Mr. Clerk. Excuse me, I was clearing my throat.

CLERK: 30 ayes, 5 nays.

PRESIDENT: The bill is introduced. Proceed, Mr. Clerk.

CLERK: Mr. President, I move for the introduction of the attached bill. Signed Senator Barnett. It comes from the Executive Board relating to weapons and explosives, to raise the age required in order to be issued a permit to store or use explosive materials.

SENATOR BARNETT: Mr. President and members of the Legislature, this was...I made a mistake when I passed this out to you. I didn't sign the second sheet that was suppose to accompany it but I tried to get the federal regulation to show you where the age would have to be 21 years of age to comply and Nebraska's law as written two or three years ago in the explosive act was 20 so we have to, according to the Fire Marshal's office, bring the age to 21 to comply with federal regulations of storage and permits for handling on explosives and there is no...I almost believe we could put this right on General File but I would leave that up to the wisdom of other people. I see no reason for the public hearing but I would leave that up to the wisdom of the body that talks about it and that's all the bill does.

PRESIDENT: Any further discussion of the request. Record your vote. Please vote. Record, Mr. Clerk.

CLERK: 32 ayes, 1 nay.

PRESIDENT: The bill is introduced.

CLERK: Mr. President, I move the introduction of the attached bill. Signed by the Government Committee and the motion is signed by Senator Stoney. A bill for an act relating to crimes and punishments; to make certain acts unlawful; to change penalties; and to repeal the original section.
